# INTERNET SECURITY 10

Shop, Bank, Browse and Share Online Safely  
Advanced Online Protection for You and Your Family

Internet Security 10 provides protection against viruses, cybercriminals, identity theft, ransomware and other online threats. With Internet Security you can shop, bank, browse and share online safely.

It's unique security, providing privacy protection on social networks such as Facebook, Google+, Twitter and LinkedIn. Utilising the parental controls, you can restrict or filter your kids' website access, protecting them from accessing inappropriate websites.

## KEY BENEFITS

### Blocks Dangerous Websites

Protects against viruses, ransomware and spyware by identifying dangerous links in websites, social networks, emails and instant messages

### Protects your Privacy on Social Networks

Identifies Facebook, Twitter, Google+ and LinkedIn privacy settings that may leave your personal information publicly available and vulnerable to identity theft

### Guards against Identity Theft

Detects spam emails containing phishing scams that can trick you into revealing private personal information to cybercriminals

### Secure Online Banking

Verifies SSL certificate authenticity, protecting your financial information from unsecure banking and shopping sites

### Protects Kids Online

Enables you to restrict or filter online access for kids, preventing them from accessing inappropriate websites

## WHY IT'S BETTER

With expertise gained over 26 years, Trend Micro is a security software leader that delivers:

- The fastest protection against new web threats\*
- Top rated protection, blocking sites trying to trick you into downloading malware\*
- Unique cloud-based protection, safeguarding our customers from over 250 million threats per day

\*NSS Labs 2014
